New Products For Social Spaces

We're a 70-year old company on a journey to bring genuine product love to furniture for social spaces. We're remaking our company; keeping what works, eliminating what doesn't.

To us, relevance doesn't come from the furniture world. Rather, it comes from how designers and clients use space to create community, foster innovation, convey corporate culture, enhance healing, deliver guest and customer experiences, expand learning, and more.

We hope you're inspired by the furniture we're bringing to social spaces.

Inspired community tables. Utility and beauty for large group, team, workspace, and individual project spaces.

Four-leg design and optional in-surface power maximize flexibility. Seated, counter, and standing heights. Solid wood frame and legs with flush and extended tops in wood veneer or laminate.

Height-adjustable desking and group tables, based on the seamless integration of refined wood design and precision engineering. Pneumatic counterbalanced system needs no power, and quietly adjusts from sitting to standing height in a second (literally). frame, top in wood veneer or laminate.

Available fixed-height desking and tables in seated, counter, and standing heights. Optional in-surface or clamp-on power. Solid wood legs and engineered steel

Lean in. Adaptive side seating with forward tilt action offers two distinct seating positions; from the standard position, Peer tilts to (and stays in) a forward-leaning position.

Available in sled base; arm and armless styles in both models. Solid wood and molded plywood.

Classic wood bench seating. Simple, honest greeting and public area seating, or paired with large tables (hint: Refect or Muir) for casual, communal seating. Standard comfort edge wood slab, optional attached cushions. Vertical ply laminated European beech in clear coat with steel legs.

Well-tailored benches, stools, and ottomans to create casual, adaptable space. Mix and match upholstered top and table top models, or pair with larger tables for impromptu seating. Optional flush mount power in bench and ottoman. Tops in exposed edge Baltic birch with wood veneer or laminate.

A more personal, personal table. Ready for working (or reading, or eating, or whatever) almost anywhere. Simply lift or depress Asher's height-adjustable surface to set a height that's just right for you. Available fixed height model. Top in exposed edge Baltic birch with Ash veneer, Forbo linoleum, or laminate.

Hospitality, grouping, and meeting tables in materials and finishes to help achieve just the right mood. Round, soft rectilinear, and super ellipse top shapes. Coffee, seated, counter, and standing heights. Painted bases and columns with Baltic birch knife edge tops; wood veneer surface/solid wood edge, Forbo linoleum surface/exposed edge, laminate surface/exposed edge or PVC edge.

Profile

We're a boutique contract furniture manufacturer. We make products by the dozen; standard with a full set of features, offered in premium surface materials and finishes. We develop furniture that can be curated into a refined, personable collection for today's social spaces.

Approach

We're not fans of designing products and letting surface materials drive price points. Our design integrates utility with an inherent beauty and premium materials. So genuine warmth and inviting aesthetic are core to the product, not optioned on after the fact.
