FREIGHT POLICY (Effective 2.1.2022)

All freight is FOB Origin (Holland). FOB Origin refers to the legal fact that the buyer assumes title of the goods the moment the freight carrier picks up and signs the bill of lading at the origin or pick-up location. With Worden, this is not an indication of freight charge responsibility. Unless indicated, product quoted by Worden includes freight charges.

Claims for dedicated TL freight damage and or shortages require notification to your Worden Customer Service representative within 72 hours of delivery with notated BOL and packing list. TL or "Truckload" refers to freight that Worden controls from origin to destination.

Claims for LTL freight damage must be processed through the LTL carrier at time of delivery. A Worden representative will assist you as needed. Claims for shortages on LTL shipments require notification within 72 hours of delivery with notated BOL and packing list. LTL, or "Less Than Truckload" refers to freight that Worden does not control after point of origin. Freight damage becomes the responsibility of the carrier.

For any freight claim, document all pertinent information and provide reference photos or video.

Worden Transportation will determine best shipping method.

Customer request for dedicated truck load will be charged at a minimum of \$ 3.25 per mile or at the zone freight percentage, whichever is greater.

Worden will ship the method of your choice and will add cost differential to invoice.

Unload time of 2 hours included in freight charge.

Unload time in excess of 2 hours will be charged at \$100.00 per hour.

Deliveries on Friday after 12:00 pm will be assessed \$500.00 layover fee.

Saturday and Sunday deliveries will be assessed a \$500.00 layover fee.

Holiday deliveries will be assessed a \$750.00 layover fee.

Team deliveries will be quoted and added to invoice.

Storage fees will be assessed 7 calendar days after scheduled ship date at \$5.50 per sq. ft. per month, non-pro-rated, plus \$250 load/unload and handling fee.

Maximum allowable back charges when delivery arrives late and no other work is available for installation crew is 4 installers, up to eight hours each, at regional hourly rates.

Back charges must be approved and require notification to your Worden Customer Service representative within 72 hours, accompanied by a signed, dated and time stamped BOL and an itemized invoice detailing number of resources, hours detained and regional rates.

How To Specify End Panels

Orders and RFQs for end panels require complete part numbers as shown below. These numbers communicate the specific and complete dimensions, specification for surface materials and finish, and other panel features required.

All end panels (except Marlborough) use a shared part number format. The price guide catalog number generally describes and prices a nominal end panel style and size; however we require a fully-configured end panel part number for accurate pricing and order entry.

Below are typical part number configurations and the size, material, and finish codes for standard non-slatwall end panel styles.

How To Specify Slatwall End Panels

Orders and RFQs for slatwall end panels require complete part numbers as shown on page 31, plus additional slatwall specification details shown below. Add this information to end panel part numbers; we will configure the slatwall end panel number and quote the price.

How To Calculate Estimated Slatwall Pricing

- Estimated slatwall end panel pricing can be calculated with the formula below.
- Complete price = Standard Panel Price + Slatwall Production Price + Slatwall Insert Price.
- Slatwall panel standard is unfinished MDF slatwall channels.

Canopy Tops

How To Specify Single Piece Canopy Tops

Orders and RFQs for canopy tops require complete part numbers as shown below. These numbers communicate the specific and complete dimensions, specification for surface materials and finish, and other canopy top features required.

All canopy tops (except Marlborough) use a shared part number format. The price guide catalog number generally describes and prices a nominal canopy top style and size; however we require a fully-configured canopy top part number for accurate pricing and order entry.

Below are typical part number configurations and the size, material, and finish codes for single piece canopy tops up to 144" length.

Laminate + Wood Edgeband – Single Piece Canopy Tops Up To 144" Length

How To Specify Multiple Piece Canopy Tops

Orders and RFQs for multiple piece canopy tops require part numbers with specific dimension codes for your exact measurements.

To specify multiple piece canopy tops, create a part number with total length of all segments combined.

BAS	CT	5	S	254	X	16	C	N	L	XXXXX-XX
LINE	APPLICATION	PANEL THICKNESS	SF or DF	LENGTH INCHES	LENGTH FRACTION CODE	DEPTH INCHES	DEPTH FRACTION CODE	BAND (2) SHORT EDGES	EDGE	LAMINATE NUMBER

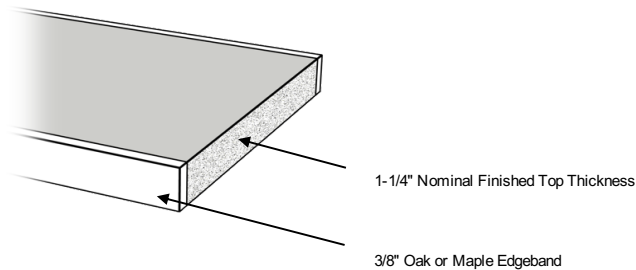

Then, specify the individual segment lengths using inch and inch fraction dimensions.

72	–	55	1/2	54	1/2	72	–
LENGTH – SEGMENT 1		LENGTH – SEGMENT 2		LENGTH – SEGMENT 3		LENGTH – SEGMENT 4	
WIDTH INCHES	FRACTION	WIDTH INCHES	FRACTION	WIDTH INCHES	FRACTION	WIDTH INCHES	FRACTION

Based on that, we will configure a complete multiple piece canopy top part number and quote the price.
