## ARLEY MAKER WORKSTATION

### EQUIPPING MORE USEFUL + ADAPTABLE MAKER SPACES

More than a table, Arley is the new maker workstation.

An accommodating place for creativity and discovery, with space to organize tools, equipment, and materials for the project at hand.

Arley's precision-engineered steel structure, laboratory-grade maple butcher block surface, and industrial casters combine to form a new kind of adaptable, long-lasting maker furniture - the mobile maker workstation.

A standard base shelf keeps materials and equipment nearby, while maximizing usable worksurface space. Optional storage drawers provide secure capacity for project materials or equipment. Multiple accessory attachment points hold the optional tool panel as well as a power cord hanger and beverage bottle rack.

### OVERVIEW
